MARé is a **stainless steel** straw that replaces the traditional plastic straws.

The product is compliant with the **EU-MOCA Directives** and respects the strict provisions that regulate the processing and production of materials intended for contact with food.

It is made of **AISI 316** stainless steel (18/8/3 austenitic and amagnetic steel), MARé is particularly resistant to corrosion from alkaline, acidic, alcoholic or corrosive drinks such as Coke, lemon-based drinks, sorbets and all drinks which contain high percentages of sugar.

The steel is resistant, easy to clean and maintains the temperature of drinks.
